EN

PINK&WHITE AESTHETIC

// 19th – 20th Feb 2027

Course overview

In this two-day hands-on course, Nico will demonstrate how to realise a six-unit anterior restoration with gingiva using Creation ZI-CT. Starting from the analysis of natural gingiva anatomy, he will guide participants step by step through ceramic layering, shape, colour, and texture — achieving a natural transition between white and pink ceramic.

Nico Squicciarini // Dental Technician & International Lecturer

Nico Squicciarini was born in Gravina in Puglia, Italy. From 2010 to 2015 he worked in a dental laboratory in his hometown, before joining Dentaltechnik Christ & Hein GmbH in Bad Wörishofen, Germany (2016–2018), mentored by Sascha Hein. He now works for SmileClinicLAB in Gdańsk, Poland, and has been a member of the Bio-Emulation group since 2023.

WHAT YOU WILL LEARN

- → Gingiva anatomy
- → Shape and colour
- → Gingiva & tooth harmony
